## The HAMPSHIRE LEARN SCITT Partnership

### Geography counts

## Do you know anyone interested in training to teach in 2015-2016?

[www.learnalliance.org.uk](http://www.learnalliance.org.uk)

### Past Students

The Hampshire LEARN SCITT Partnership will be offering training places for primary and secondary English, Maths, Biology, Chemistry, Physics, History, D&T and PE in 2015-2016. This is an exciting training route for graduates who want to be part of a school team from day one. They will be training with knowledgeable and enthusiastic teachers, committed to education and leaders in their own fields.

We are seeking to recruit:

- those in their final year at university
- those with degrees of 2.2 and above
- mature applicants with degrees who have decided to become teachers after working for at least three years in another occupation

Those completing the course successfully will be awarded QTS and a PGCE.

Training takes place in schools in the LEARN Alliance of which Thornden is the lead school.

See us on UCAS when the system opens at the end of October 2014.

To find out more, please contact Mrs Sian Taggart (SCITT Administrator) at  
[sian.taggart@learnalliance.org.uk](mailto:sian.taggart@learnalliance.org.uk) or telephone 023 8024 6950

or

## Train to Teach Roadshow, Poole

28th April 2015

Poole High School

5pm - 8pm

More and more people are considering a career in teaching. If you would like to find out more about how you might train for this rewarding career please come along to find out more.

At the event you will be able to:

- attend a presentation that guides you through the routes into teaching, including invaluable information on applying for training
- speak to teaching experts and practising teachers to receive one-to-one advice on your training options and find out about teaching as a career
- meet representatives from the schools and universities that lead teacher training in our region to find out about their courses and entry requirements
- Meet providers who have both Primary and Secondary places available

[Professional skills tests](#)

## Professional skills tests for trainee teachers

If you are thinking of applying for a teacher training course, you will need to take the numeracy and literacy skills tests as part of the application process, and ensure you have passed them both before the start of the course. Remember you must submit an application for a teacher training course before you can take the skills tests.

The first attempt at taking your skills tests in each subject is provided free of charge. You can book up to two resits if required, but you will be expected to pay for these yourself.

Some candidates may be able to request special arrangements such as **25% extra time** when registering online for skills tests.

When you take the tests you will need to provide proof that you have applied for a teacher training course. The evidence that will be accepted is as follows:

Give us your feedback!

- I am so thankful that I trained through the LEARN Alliance. Their professionalism and level of support has made all the difference. I have made friends for life and qualified as a teacher!
- A challenging year – the best & the worst of times but we've made it through to the end with a smile on our faces. I couldn't have done it without the support of friends I've made through the LEARN Alliance. I'm so thankful I chose this route, with this Alliance.
- A hands-on, fully immersed, practical route to wanting to be a modern teacher, taught by outstanding practitioners with all the requirements of the classroom borne in mind.
- Training on the job, within a highly professional & supportive team, is a steep learning curve but the most effective way to learn what it takes to be an outstanding teacher!
- I feel fortunate that I chose the LEARN Alliance and the School Direct route. Through the support of the alliance and SD friends ... I made it!
- Supportive, friendly, efficient and firm, from beginning to the end. An excellent alliance with which to start a teaching career.
- The LEARN Alliance, and schools within it, have supported me to grow into a confident and happy

# Our motivation

# Recruitment crisis

Teacher training has become harder and harder these days!

- **To pilot additional opportunities on Primary PGCE courses**
- **To work creatively to improve range of pedagogically driven, school-based opportunities**
- **To respond to needs of trainee teachers in collaboration with HEIs to ensure appropriate provision**
- **To support trainee teachers across the Alliance through high quality professional learning and development**
- **Increase opportunities for M level projects in schools with HEIs**
- **To secure high quality entrants to the profession**

“The Primary responsibility for improvement rests with schools...Our aim should be to create a school system which is self improving....We know that teachers learn from best from other professionals....”

The Importance of Teaching (Schools White Paper, 2010)

# Our aims

- to produce thoughtful and highly-skilled entrants to the teaching profession who are respectful educators
- to inspire trainee teachers to reach the highest standards of education thus enabling children to be successful lifelong learners
- ***to ensure all trainee teachers meet the Teachers' Standards for QTS on completion of the programme***
- to enable trainee teachers to develop the relevant knowledge, understanding and skills
- to develop critically reflective trainee teachers who are confident and creative thinkers
- to equip newly qualified teachers to meet the needs of **all** children
- to attract and recruit excellent trainees to meet national and local needs
- to develop high quality training, mentoring and assessment expertise locally.

**“I chose to go for School Direct because I wanted to be in school at the beginning of term to see how classes were welcomed and settled. I also wanted this year to be as realistic as possible to minimise the shock of the NQT year!**

**I think learning on the job is much more beneficial because you see how it is and do not build a false picture.**

**I like the fact that I was introduced as a teacher from the start because I have been able to build a trusting relationship with my classes and there are not the behaviour issues that there could have been if I had come in later.”**

“This is the best way to learn how to be a teacher. On the job training is invaluable, surrounded by professionals and observing their good practice makes a massive impact on your understanding.”

- Partner schools
- Organisation of training
- Ages and contexts
- School based expertise
- Equality of opportunity
- High quality mentors and tutors
- Best of both worlds
